PETITION

To the Honourable Members of the House of Assembly this present Parliament assembled - The Petition of the undersigned residents of South Australia

Argument

We draw the attention of your Honourable House to the existence of 9 quarter mile tracks for motorsport drag racing in Australia, in every State and Territory except the ACT and South Australia. We condemn street racing as a danger to other motorists and the general public and feel that an appropriate facility would help to reduce road accidents by providing a safe venue for driver training and competition. South Australia lacks the facilities for motorsport enthusiasts to participate in and watch various forms of drag, drift and track racing. The attendance and success of the Clipsal 500 motor racing event demonstrates the enthusiasm South Australian public has for motor racing. The Adelaide Motorplex Consortium proposes to build drag, drift, track and other racing and related engineering and educational facilities at Gillman near Port Adelaide which would be good for sport, good for spectators, would create jobs, help small business and encourage economic activity and infrastructure development.

Request

Your petitioners therefore request that your honourable House will urge the Government to take immediate action to support drag and track racing in South Australia by approving the sale of land presently held by the Land Management Corporation for the construction of the Adelaide Motorplex at Gillman and by providing whatever planning and other support is necessary to expedite construction of the Motorplex at that site.
